A MUSIC CLINIC FOR HIGH SCHOOL ORCHESTRA PROGRAMS

RAP & RHAPSODY

The Hip Hop Orchestra Experience — a two-day clinic that shows string players their instrument is bigger than classical.

A hip-hop artist writes string arrangements for your players, rehearses them in sections, teaches a masterclass on how records actually get made, and performs the result with them at the end of day two.

WHAT THE TWO DAYS LOOK LIKE

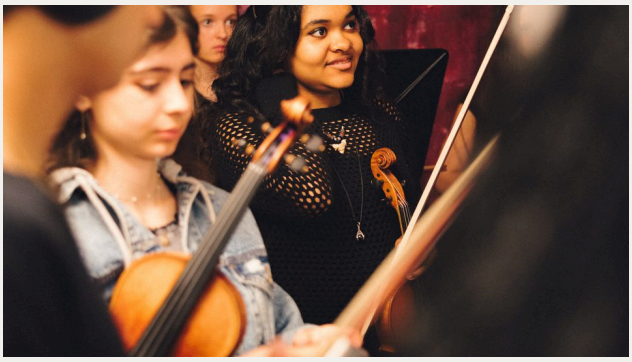

Beforehand	Pre-arranged sheet music, written to your players' level, sent ahead of the visit.
Day 1 AM	Welcome, hip-hop and orchestral context, intro to the repertoire, sectional rehearsals.
Day 1 PM	Full orchestra rehearsal, production masterclass, storytelling and self-expression, run-through.
Day 2 AM	Refining the arrangements, performance coaching, student-led creative work.
Day 2 PM	Dress rehearsal, recording and reflection — then the showcase for families and the school.

WHAT STUDENTS GAIN

- A working understanding that their instrument belongs in more than one tradition
- Rhythmic skills from hip-hop that transfer straight back to classical repertoire
- Direct collaboration with a professional artist, and a picture of music as a career
- A performance at the end of day two — confidence built by doing, not discussing

WHAT THE SCHOOL PROVIDES

- Orchestra students, and a rehearsal space
- Instruments and music stands
- Sound equipment for the final performance, if needed

RECORDING SESSION · CHARLOTTE, NC

> “The string arrangements were engaging, accessible, and fun to play, and they loved performing with YUNG Citizen at the end of the session. I would highly recommend this workshop to any teacher looking to add new styles to their teaching.”
